TITUS TILE SPOT

NEW!

With its installation depth of only 10mm, the Titus tile spot is specially developed for installation in floor tiles, scaffolding and other floors. The spot is completely waterproof (IP68) and therefore also usable outdoors or in bathrooms. With a low power of 0.25W or 0.75W, this spot is ideal for marking a route or as orientation lighting.

RECESSED SPOT

The spot can be used both indoors and outdoors and you can walk/drive over the spot as it can carry loads of up to two tons The housing made of stainless steel (SS 316) gives the spot a luxurious look.

CONNECTION

The titus tile spot is connected in parallel on a 12V driver of your choice. Depending on the power of the driver you can connect up to 100 spots in one installation.

- ✔ Lightcolor 2800K, Blue and RGB
- ✔ Only 10 mm high
- ✔ Can withstand up to 2000 KG
- ✔ Waterproof IP68
- ✔ 7 meters connection cord
- ✔ Stainless steel (SS 316)
